Public Training
ER/Studio Data Architect and ER/Studio Repository

Date / Time:	November 16-18, 2009 (3 days) 9:00 a.m. to 5:30 p.m.
Location:	Embarcadero Technologies 100 California Street, 12th Floor San Francisco, CA 94111
Instructors:	• Dr. Nicholas Khabbaz, Senior Enterprise Architect and Instructor • Dan Weller, CDMP, Senior Data Modeler and Instructor
Audience:	The class is targeted at a variety of audiences, including data modelers, business analysts, data architects, DBAs, data analysts, project managers, software architects, and software developers.
Topics:	• Conceptual Modeling • Logical Modeling Using ER/Studio • Physical Modeling Using ER/Studio • DDL Generation • ER/Studio Repository Environment • Introduction to ER/Studio Macros

Approach:	• Provide a beginning to end **data modeling process**
	• Incorporate data modeling and ER/Studio **best practices**
	• Follow a consistent pattern throughout the material
	   • Describe a data modeling or ER/Studio **concept**
	   • Apply the concept to a **case study** (global equity trading system)
	   • Use ER/Studio **hands-on** practice to implement the case study

Benefits:	• Stakeholder alignment around one solid data modeling process • Alignment of data modeling concepts with ER/Studio features and functions • Development of highest quality ER/Studio data models • Effective stakeholder collaboration using ER/Studio Repository • Effective use of ER/Studio within the larger enterprise architecture and SDLC contexts
Cost:	$1,995 per attendee; pre-payment required
Contacts:	• For registration, please contact Becky Baird at (209) 609-7195 or bbaird@emodelers.com • For class inquiries, please contact Dan Weller at dweller@emodelers.com • For any other information, please contact Dr. Nicholas Khabbaz at nkhabbaz@emodelers.com
Company:	e-Modelers, Inc. is an IT professional services company providing consulting and training in enterprise architecture, modeling and design. e-Modelers has been a partner of Embarcadero Technologies since 2000.

Post Training
Free one-on-one ER/Studio Consulting

Date / Time:	• November 19, 2009 9:00 a.m. to 5:00 p.m. • One hour slots (9:00 a.m. to 10:00 a.m.; 10:00 a.m. to 11:00 a.m.; etc.) will be made available for class attendees • To book a time, please contact Dr. Nicholas Khabbaz at nkhabbaz@emodelers after registering for the class
Location:	Embarcadero Technologies 100 California Street, 12ᵗʰ Floor San Francisco, CA 94111
Consultant:	Dr. Nicholas Khabbaz, Senior Enterprise Architect
Purpose:	The purpose of the one-on-one consulting is to provide a class attendee with the opportunity to discuss with the consultant his or her specific ER/Studio related projects, plans, problems and challenges in their organization. The consultant will discuss, among other things, approaches, frameworks and ideas for solutions that have worked in the past.
Topics:	• Enterprise data model development using ER/Studio Data Architect • Data and business process alignment: effective use of the ER/Studio Data Architect and Business Architect • Migration planning from ERwin or other data modeling tools to ER/Studio • Developing a data modeling standards document • Improving data quality with ER/Studio Data Architect • Using ER/Studio Data Architect for dimensional modeling in a data warehouse environment • Aligning the ER/Studio products with an organization's enterprise architecture framework • Using the ER/Studio products to support a service oriented architecture • Other related topics, of interest to class attendees
