Onsite Training

ER/Studio Data Architect, Repository and Team Server

Objective	The objective of the training is to help our clients effectively implement data modeling concepts, best practices and collaboration techniques using the ER/Studio Data Architect, Repository and Team Server tools while deriving all the intended benefits of these tools.
Duration	3 days
Audience	The training is intended for a variety of audiences, including enterprise architects, data architects, business analysts, data modelers, data analysts, DBAs, data stewards, project managers, software architects, and software developers.

Approach	• Provide a **data modeling process** context
	• Incorporate data modeling and ER/Studio **best practices**
	• Follow a consistent pattern throughout the material
	  • Describe a data modeling or ER/Studio **concept**
	  • Apply the concept to a **case study**
	  • Do ER/Studio **hands-on** practice to implement the case study

Topics	• Conceptual Modeling Using ER/Studio • Logical Modeling Using ER/Studio • Physical Modeling Using ER/Studio • ER/Studio DDL Generation • ER/Studio Visual Data Lineage • ER/Studio Repository • ER/Studio Team Server • ER/Studio Macro Development
Case Study	Development of a data model for a global equity trading operation
Price	$5,000 per day plus travel expenses for up to 10 attendees $500 per day for each additional attendee
Company	e-Modelers, Inc. is an IT professional services company providing consulting, training, mentoring and staffing in enterprise architecture and modeling, with emphasis on ER/Studio. e-Modelers has been a partner of Embarcadero Technologies since 2000, providing ER/Studio professional services to numerous U.S. clients.
